# Stage 4 Art

This term, Stage 4 Art are concentrating on movement in print making. Students have looked at Brett Whiteley, in particular his work *Bird and Wave*. They have used ink to extend the line work out, creating new, expanded, individualised pieces of work. They have then used this idea of movement to design an artwork to be carved in lino and then printed. The students have come up with some great pieces of work. After lino we will move onto silk screen printing.

# Year 5/6 Science Update

An update on the Year 5/6 Science Prac on Plant Growth with different types of water. Our control plants with plain water have grown tall and healthy and have shoots up to 3cm tall, while the seeds treated with salt water have barely germinated!

The Sugar water plants have weird curly leaves, and the seeds watered with weak Citric Acid water are growing almost as well as the plain water sample. The class are taking measurements and recording observations each week as the plants grow and change before our eyes - Stay tuned for more updates!

# North West PSSA Touch Football Trials

On Friday, Cheyanne and I represented the Moree Zone at the North West PSSA Touch Football Trials.

After getting up at 3:30 am, Geoff and Mum took me to Moree where I met up with students from Moree East Public School. I then travelled to Armidale with them. Cheyanne went to Tamworth with the girls from Moree East Public School.

I had a great day and tried my best. On the way home we stopped in Armidale at Hungry Jacks for lunch.

Back at Moree, I had McDonald's for dinner while we waited for Cheyanne to get back from Tamworth.

Thankyou to Mr Champion for picking us up from Moree and to Geoff and Mum for taking me to Moree.

# Reforms to P & C Federation

The NSW Parliament has introduced legislation to reform the NSW Federation of Parent and Citizens Associations, which has suspended operation pending Supreme Court action. While these reforms will not affect the day-to-day operation of individual school P&Cs, they will introduce a new executive structure which will ensure the Federation operates as a modern and representative body on behalf of school P&C Associations.

Each school's P&C Association will be asked to vote for councillors and delegates who will represent their electorate at the Federation's Annual General Meeting and councillors who will serve on the Federation's Board of Management. More information will be available on the Department's website at

# SALT Bush Tour

20 June 2014 - Boggabilla

## **‘SALT’ Bush Tour: regenerating women’s choices Delivering Try-a-Trade Workshops in North West NSW An invitation to young women at your school**

The ‘SALT’ Bush Tour will begin in Gunnedah on 16 June 2014 and finish in Nyngan on 27 June 2014. Tour details are provided on the reverse of this flyer.

SALT (Supporting and Linking Tradeswomen) is a support network for tradeswomen, apprentices and women/girls considering a career in a trade.

A Try-A-Trade trailer along with experienced tradeswomen will talk to and demonstrate what it takes to be a tradeswoman. Young women will be familiarised with the types of tools used in various trades including carpentry and painting and decorating.

Women NSW formed a number of partnerships to increase the number of women working in male-dominated trades. Two of the partnerships with Women NSW are the Try-A-Trade trailer with SALT and the Girls In Trades ‘Ambassadors Project’ with the NSW Department of Education and Communities.

The Department of Education and Communities through Secondary Education - Senior Pathways is sponsoring SALT to run workshops in locations in the north west of NSW. This is one of a number of initiatives to support students in rural and remote areas to consider a range of possible career pathways from secondary education. This initiative also provides young women with access to career role models.

SALT works closely with local TAFE campuses.
